

# Primary Care Provider

**We have a provider on-call, 24/7 daily** for non-life threatening, urgent medical problems for when you feel you cannot wait until the next Business Day.

Non-life threatening problems such as:

- colds or sore throats
- flu
- fever
- ear infections
- sprains
- minor burns or cuts
- UTIs
- nausea, vomiting, diarrhea

are examples of issues that we can help with, either after hours or at a clinic, so you don't have to go to the hospital.

## **Call Us! We're here to help.**

Regular Office Hours:

Mon-Fri: 8:30am - 8pm Sat: 9 -5

After Hours Access: 801-280-7774

# Walk-In Clinic

For when you need treatment for urgent, non-life threatening conditions and the office is closed

Open the brochure to see our walk-in clinic suggestions

# Emergency Department

**Use the emergency department when you need immediate treatment** for serious life-threatening illnesses and injuries such as:

- Chest pain
- Coughing up blood
- Vomiting blood
- Head injury with loss of consciousness
- Heat stroke or dehydration
- High fever with stiff neck, mental confusion, or difficulty breathing
- Severe bleeding

Make sure to give the ED the name of your primary care provider so they can coordinate your care

When should I go to my **primary care doctor**, to a **walk-in clinic** or to the **emergency department?**
